TESTIMONIALS

This course has not only equipped me with technical prowess but has also evolved me for the better. The hands-on training offered here allows students to dive into different areas, making learning interactive and engaging. The department has provided me with numerous opportunities to display leadership skills and demonstrate a sense of commitment and service. Whether through organizing events or leading group projects, I've been able to hone my abilities and contribute meaningfully to the community.

The faculty members in our department are mentors - deeply invested in our growth and success. Their unwavering support and guidance have been invaluable in shaping my academic and professional trajectory. As I reflect on my time in the B.Tech program, I am confident that the foundation laid here will empower me to make meaningful contributions in the ever-evolving landscape of technology and business.

*by MANISH . M
IV Year / CSBS*

The department of Computer Science and Business Systems has been an excellent place to express and discover my talent, thoughtful ideas and enthusiasm towards various activities and opportunities . We have been a powerhouse of achievements and hold a great hand in the campus on many forums.

We have been the contributors to industry academia collaboration and other initiatives that truly have been creating impact on the students community. Under the visionary leadership and guidance of our beloved Head of Department Dr.M. Ananthi mam , we have been consistently working towards progress that will empower further development of the department and our successful ventures.

TESTIMONIALS

As a student in the Department of Computer Science and Business Systems, my journey has been nothing short of transformative. The blend of rigorous academic curriculum and practical exposure has not only equipped me with technical prowess but also instilled in me a holistic understanding of the intersection between technology and business.

The department fosters a dynamic learning environment where students are encouraged to explore their passions and push the boundaries of innovation. From hackathons to industry guest lectures, there are ample opportunities for students to engage with real-world challenges and gain hands-on experience. Beyond academics, the sense of community is unparalleled. Whether collaborating on group projects or participating in extracurricular activities, I have forged lifelong friendships and developed invaluable teamwork skills that will serve me well in my future endeavors.

*by SUJITHA . K
II Year / CSBS B*

This unique course blends the realms of computer science and management. The curriculum delves into the fundamentals of economics, entrepreneurship, and marketing, providing valuable insights into the business world. One of the highlights is the hands-on training in computer science subjects, ensuring practical application of concepts. Additionally, subjects like Business Communication and Value Science offer a deeper understanding beyond traditional English papers, covering essential aspects like morality, diversity, and cross-cultural communication.

The supportive faculty and conducive environment foster innovation and creativity, making it an ideal learning environment. Overall, my experience in the Computer Science and Business Systems department has been enriching, equipping me with a diverse skill set and preparing me for the dynamic world of technology and business.
